### Important Information

We pay credit interest gross (the full amount) if you do not pay tax and have filled in HM Revenue & Customs form R85 (available from your local branch). We pay it net (with tax taken off) if you do pay tax. If you are joint account holders and one of you pays tax but the other does not, we can pay interest part net and part gross.

When we need to give you notice, you will receive 28 days' notice before we take the charge or interest from your account. We will send you a 'Notice of charges' with your next regular statement and we will take the charge or interest 28 days after this statement date. You must pay charges for specialist services at the time the transaction takes place. We work out overdraft interest each day and take it from your account each month. We will charge you the unauthorised overdraft interest rate and the unauthorised overdraft charge if your account is either overdrawn without our authorisation for all or part of a month, or over your authorised overdraft limit.

We may decide when to apply and waive unauthorised overdraft rates and charges, and other account charges. All rates and charges may change.

### Types of Interest rate

**AER** – annual equivalent rate. This shows what the interest rate would be if we paid interest and compounded it (interest paid on interest) once a year.

**EAR** – equivalent annual rate. The yearly cost of an overdraft. These example rates allow you to compare the different rates offered by providers.
