Home emergency cover

This cover only applies if shown on **your** schedule.

Your contract of insurance

This is a contract of insurance between **you** and **us**. **You** must read it with **your policy documents**. Unless specified, the terms of the **policy documents** will apply.

Explaining the parties involved in this cover

- Home emergency cover is provided by Aviva Insurance Limited.
- Claims are administered by HomeServe Membership Limited, registered in England No 2770612. Registered office: Cable Drive, Walsall, WS2 7BN.

What is this cover?

Home emergency cover provides **you** with assistance for a sudden and unforeseen event such as:

- The breakdown of **your main heating system**.
- A leak in **your** internal natural gas supply pipe.
- Leaking or blocked pipes, drains, or toilets.
- Blocked or collapsed drains.
- Failure of the electrical wiring within the **property**.
- Damage to roofing and external windows or doors.
- Repair or replacement of locks and lost keys to secure the **property**.
- Treatment of rats, mice, wasps or hornets' nests on the **property**.

Eligibility

This cover is for homeowners and/or residents who are responsible for paying for repairs to the **property** they live in. It is not for properties solely intended for business use, let properties or mobile homes.

The **property** must be within the United Kingdom and Northern Ireland (excluding Isle of Man and the Channel Islands).

Your main heating system must either be fired by natural gas, oil or consist of electrical panel heaters.

Claims limit

Up to £1,000 per claim for the cost of labour, parts and materials (including VAT).

The only exceptions are for:

- boilers and electric heaters which **we** deem to be beyond economical repair in which case **we** will contribute £500 towards a replacement.
- electric vehicle charging points under the Electrical emergency section are covered up to £2,000 per claims.

There is no limit to the number of claims **you** can make under this cover.

Hotel accommodation

If the **property** can't be lived in as a result of a claim under this **policy**, **we** will pay up to £1,000 for **your** hotel room and transport costs.

How to get help

To make a claim for an emergency, call **us** on **0345 268 2144**. **We**'re open 24 hours a day, 365 days a year.

If **your** incident is an emergency (including internal leaks which can't be controlled, **you** are totally without electricity or the **property** is unsafe), **your** claim will be given priority. Otherwise, **we** will make an appointment for a visit.

If **you** think **you** have a gas leak, **you** MUST immediately call the National Gas Emergency Service on **0800 111 999**. The National Gas Emergency Service will need to visit the **property** and isolate the leak before **we** can provide any assistance.

Words with special meanings

In addition to the definitions within the **policy documents**, wherever the following words appear in **bold** in this **policy** they will have the meanings as set out below:

Engineer - A person employed or authorised (or both) by HomeServe to assist with **your** emergency.

Investigative work - Physical work is carried out to understand the problem but it can't be resolved under the **policy** (for example, electrical testing, inspection of drains, diagnosing a boiler or system that requires replacement or maintenance work).

Main heating system - The **main heating system** in the **property**. By **main heating system**, we mean natural gas boiler systems (no greater than 70 kilowatts), oil-fired central heating and electric panel heaters provided they are permanently wired into **your** domestic electricity.

Main heating system does not mean the following:

- underfloor heating, warm air, convection and fan convector heating systems
- electric and dual-purpose boilers (for example, Agas and Rayburns used for cooking and central heating)
- more than one boiler in the **property**
- combined heat and power systems
- power generation systems including solar panels and wind turbines.

Policy documents - **Your** main 'Home Insurance policy documents' and 'Important Information' document.

Policy - **Your** Home emergency cover as set out in this **policy** booklet, **your** main 'Home Insurance Policy booklet' and **your** current schedule.

Property - **Your** house, flat, any attached outbuilding (for example, an integral garage) and the land within the boundary of the **property**.

These must all be at the address shown on **your** schedule.

Property does not mean the following:

- any communal or service duct areas, and
- detached garages, sheds, greenhouses and non-permanent structures.

We/Us/Our - Aviva Insurance Limited and/or HomeServe Membership Limited on behalf of Aviva.

You/Your - The owner of the **property** who is named on the schedule and any person authorised to be in the **property** at the time of the emergency/incident.

General conditions

In addition to the conditions set out in this section, the 'General conditions' of the **policy documents** also apply.

Parking restrictions

When making a claim, **we'll** ask **you** if there are any parking restrictions including the need for a parking ticket, a parking permit or inability to park within close proximity to the **property**. Where no parking is available, this may affect **our** ability to deal with **your** claim promptly.

Maintenance

It is **your** responsibility to make sure normal day-to-day maintenance is carried out, and the **property** is in good condition.

When carrying out a repair, HomeServe may identify that essential maintenance work is required to prevent future breakdown or blockages. For example:

- where there is a build-up of sludge/scale/rust resulting in **your** boiler and/or central heating system needing cleaning
- realigning a blocked drain to avoid a recurrence of the problem.

We will not be able to cover any future emergencies relating to such essential maintenance until it is carried out.

Repairs and parts guarantee

Under this **policy**, the workmanship and any part(s) supplied and used by **us** to solve the problem will be guaranteed for a period of twelve months from the date the work is carried out. **Your** statutory rights are not affected.

Creating access

Upon arrival at the **property**, the **engineer** will locate the source of the incident. If direct access is not available, for instance if there are floor tiles or floorboards in the way, the **engineer** will need to create access. If **you** want the **engineer** to do this, **you** will be asked to confirm it in writing while the **engineer** is at the **property**. Unless stated in the 'What is covered' sub-sections, this **policy** does not cover **you** for any damage which may be caused to the **property**, its contents, fixtures, fittings, floorings or sanitary ware (unless such damage is as a result of the **engineer's** negligence). If **you** don't want the **engineer** to create access, **we** will be unable to progress **your** claim until **you** have arranged for access to be made.

General exclusions

In addition to the exclusions set out in this section, the 'General exclusions' of the **policy documents** also apply.

What is not covered

- Maintenance related issues such as: sludge, scale or rust build up in **your** heating system, power flushes, dripping taps or routine electrical tasks such as replacing light bulbs or adjusting timers
- Any event, loss or damage relating to anything **you** are not wholly responsible for, such as communal areas or service ducts
- Any costs/activities in excess of the claims limit or any other limit specified in the 'What is covered' sub-sections. **You** are responsible for agreeing and settling these costs directly with HomeServe Membership Limited
- Cosmetic damage
- Any losses caused by any delays in getting spare parts
- Any associated expenses or losses **you** incur which are not directly covered by this **policy**
- Systems, equipment or appliances that have not been installed according to appropriate regulatory standards in place for the UK, the manufacturer's instructions or both; or that are subject to a manufacturer's recall
- Instances where a repair or replacement is needed only because of changes in legislation or health and safety guidelines
- Loss or damage related to:

- Loss arising from subsidence, heave of the site or landslip caused by:
 - Bedding down of new structures
 - Demolition or structural repairs or alterations to the **property**

- **Investigative work** where the incident that caused **you** to claim has already been resolved
- The costs of any work carried out by **you** or people not authorised by **us** in advance
- Any parts not supplied and chosen by **us**. Subject to any applicable regulations, **our engineer** can fit an alternative part (that complies with British Standards) supplied by **you** at the time of the visit (for example, a switch or tap). However, this part will not be guaranteed. **Our engineer** will not fit alternative parts supplied by **you** where the claim relates to the gas supply or the central heating system
- Any defect, damage or breakdown caused by malicious or deliberate action, negligence, misuse or third-party interference, including any attempted repair or modification to the elements covered by this **policy**, which does not comply with British Standards

Main heating system

What is covered

Failure of either the heating and/or hot-water supply provided by the **main heating system** caused by a breakdown or a leak (including leak to the internal natural gas supply pipe). An approved **engineer** will carry out the work.

Beyond economical repair

On assessment of **your main heating system**, **our engineer** may declare it to be 'beyond economical repair'. This means the total cost of parts (including VAT) required to repair **your main heating system** exceeds 85% of the manufacturer's current retail price of a replacement, or if this is not available, a similar make and model. **We** will also declare the **main heating system** as 'beyond economical repair' if **we** are unable to get the required manufacturer's spare parts from reputable suppliers within 28 days.

If **we** declare **your main heating system** as beyond economical repair, **we** will contribute £500 towards a replacement. **You** will be responsible for arranging the replacement.

You will then have the choice to continue with the cover for **your** new boiler or heater(s) as long as it is not excluded under the 'What is not covered' sections or the 'General exclusions' section of this **policy**, or **you** can cancel this **policy** following the procedure outlined under the 'General conditions' section of **your** main 'Home Insurance Policy booklet'.

Temporary heaters

If **you** have no source of heating, **we'll** deliver two temporary electrical heaters to **your** home if **we** are unable to attend on the day **you** make **your** claim or the next day. **You** don't have to return the heaters to **us**. **Your policy** doesn't cover the running costs of the heaters.

Please bear in mind these heaters are only temporary and should not be used as a permanent source of heating.
