Instant Access Saver Issue 16

What is the interest rate?

The interest rate depends on your account balance.

Account balance	Interest rate AER/gross a year (variable) from 1 October 2025
£1 - £9,999	1.10%
£10,000 - £49,999	1.15%
£50,000+	1.35%

Receiving your interest

- We work out your interest daily. This is then paid into your account yearly (on the anniversary of your account opening).
- We'll also pay interest when you close your account.

Can Nationwide change the interest rate?

Yes, the rates are variable. That means we can change them, up or down.

Section 04 of '**Our Savings Terms and Conditions**' explains when we can do this, and how we'll let you know.

You can also check our current rates in your branch, or online at nationwide.co.uk/savingsrates

What would the estimated balance be after 12 months based on £1,000, £10,000 and £50,000 deposits?

For customers with accounts opened on or after 1 October 2025

Initial deposit	Interest rate AER/gross a year (variable) from 1 October 2025	Estimated balance after 12 months

£10,000	1.15%	£10,115.00
