

## Summary box

# Instant Access Saver Issue 11

### » What is the interest rate?

The interest rate depends on your account balance.

Your account balance:	Interest rate AER/gross a year (variable)
£1 - £9,999	2.25%
£10,000 - £49,999	2.30%
£50,000+	2.35%

#### Receiving your interest

- We work out your interest daily. This is then paid into your account yearly (on the anniversary of your account opening).
- If you close your account early, we'll pay your interest on the day it's closed into another Nationwide current or savings account, or a current account with another UK provider. This account must be in your name, and be able to accept payments.

### » Can Nationwide change the interest rate?

Yes, the rates are variable. That means we can change them, up or down.

The following sections of our Savings General Terms and Conditions explain when we can do this, and how we'll let you know:

- 'Variation of your interest rate and other account terms and conditions'
- 'How will we tell you about interest rate changes?'

You can also check our current rates in your branch, or online at [nationwide.co.uk/savingsrates](https://nationwide.co.uk/savingsrates)

### » What would the estimated balance be after 12 months based on £1,000, £10,000 and £50,000 deposits?

Initial deposit:	Interest rate AER/gross a year (variable)	Balance after 12 months
£1,000	2.25%	£1,022.50
£10,000	2.30%	£10,230.00
£50,000	2.35%	£51,175.00

**This table shows what a future balance might look like. It assumes:**

- You don't pay any more money in or take any out
- The interest is paid into the account
- The interest rates shown do not change.
