Data reported as "to date" throughout this report refers to the period since 31/05/ 2011.

Arrears	Nationwide identifies a loan as being in arrears where an amount equal to or greater than a full month's contractual payment is past its due date. Arrears includes fees and insurance premiums that are included in the arrears balance on which interest is charged. Months in Arrears is a simple multiplier of Arrears balance /normal instalment. If the Months in Arrears is less than one, zero is reported. Nationwide recognise that arrears are typically caused by temporary changes in customer circumstances, and therefore offer a range of forbearance and account management options to customers. Options include temporary conversion to interest only, term extension and arrears capitalisation. All account management/forbearance options are low in materiality. Properties in possession are repurchased from the Covered Bond programme.
Arrears - weighted average	Accounts not in arrears are excluded from the weighted average table on page 3.
Arrears - default	For the purposes of this report a loan is identified as being in default where an amount equal to or greater than three month's contractual payments is past its due date.

Covered Bond Label

DISCLAIMER: This document has been prepared by Nationwide Building Society in its capacity as Cash Manager.

The Covered Bond Label is a quality Label which responds to a market-wide request for improved standards and increased transparency in the European covered bond market.

The Label:

- Establishes a clear perimeter for the asset class and highlights the core standards and quality of covered bonds;
- Increases transparency;
- Improves access to information for investors, regulators and other market participants;
- Has the additional objective of improving liquidity in covered bonds;
- Positions the covered bond asset class with respect to the upcoming regulatory challenges (CRD IV, Solvency II, redesign of ECB repo rules, etc.).

The Label is based on the Covered Bond Label Convention, which defines the core characteristics required for a covered bond programme to qualify for the Label. This definition of the required characteristics is complemented by a transparency tool developed at national level based on the "Guidelines for National Transparency Templates".

The Covered Bond Label was created by the EMF/European Covered Bond Council (ECBC) in 2012. It was developed by the European issuer community, working in close cooperation with investors and regulators, and in consultation with all major stakeholders.
