Data reported as "to date" throughout this report refers to the period since 31/05/ 2011.

Arrears	Nationwide identifies a loan as being in arrears where an amount equal to or greater than a full month's contractual payment is past its due date. Arrears includes fees and insurance premiums that are included in the arrears balance on which interest is charged. Months in Arrears is a simple multiplier of Arrears balance/normal instalment. If the Months in Arrears is less than one, zero is reported. Nationwide recognise that arrears are typically caused by temporary changes in customer circumstances, and therefore offer a range of forbearance and account management options to customers. Options include temporary conversion to interest only, term extension and arrears capitalisation. All account management/forbearance options are low in materiality. Properties in possession are repurchased from the Covered Bond programme.
Arrears - weighted average	Accounts not in arrears are excluded from the weighted average table on page 3.
Arrears - capitalisation	Nationwide recognise that arrears are typically caused by temporary changes in customer circumstances, and therefore offer a range of forbearance and account management options to customers. Options include temporary conversion to interest only, term extension and arrears capitalisation.
Constant Payment Rates	The total CPR reported on a monthly/3 month average and annualised basis being the aggregated value of Natural and Technical CPR .
Constant Payment Rates (CPR) - Natural	Natural CPRs reported reflect the aggregate of scheduled and unscheduled repayments of principal.
Constant Payment Rates (CPR) - Technical	Technical CPRs reported reflect loans repurchased from the trust
Geographical Distribution	Mapped to Nationwide's internally derived geographic regions which may differ to the Nomenclature of Units for Territorial Statistics (NUTS) regions used in other reporting.
Indexed	Indexation is applied quarterly on a regional basis to property valuations each January, April, July, October.
Loan to Value ratios at origination	LTV at origination excludes any fees added at the time of origination .
Mortgage Account	A mortgage account consists of one or more underlying loans all secured with equal priority by a first charge on the same property and thereby forming a single mortgage account .
Mortgage Collections	The aggregate amount of scheduled and unscheduled principal and interest collected during the reporting period.
Principal and Revenue Receipts	The covered bonds issued are a liability of Nationwide Building Society. The Principal and Revenue Receipts and Ledgers information shows the resources available to support the guarantee to bondholders in the event that Nationwide Building Society is unable to meet its obligations to them.
Product groups	Product groups are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Repayment Terms	Repayment terms are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Repurchases	Repurchases include all loans in possession. Repurchases to date includes all loans repurchased from and including 31 May 2011.
Standard Variable Rates	Nationwide operates two Standard Variable Mortgage Rates . The Base Mortgage Rate is capped at the Bank of England Base Rate plus 200 basis points. The Standard Mortgage Rate is not subject to a cap.
Substitutions	Prior to 31 December 2012 substitutions included further advances granted in the reporting period on mortgage accounts that were already within the Pool.
True Balance	Aggregated Outstanding Balances reported refer to the total outstanding balance (" True Balance") under each mortgage loan. True Balance is the aggregate of: (a) the original principal amount advanced and any further amount advanced, (b) the amount of any re-draw made under any flexible loan, (c) any interest, fees or charges which has been capitalised and (d) any other amount (including accrued interest and arrears of interest) which is due or accrued (whether or not due) and which has not been paid and has not been capitalised.

Covered Bond Label

DISCLAIMER: This document has been prepared by Nationwide Building Society in its capacity as Cash Manager.

The Covered Bond Label is a quality Label which responds to a market-wide request for improved standards and increased transparency in the European covered bond market.

The Label:

- Establishes a clear perimeter for the asset class and highlights the core standards and quality of covered bonds;
- Increases transparency;
- Improves access to information for investors, regulators and other market participants;
- Has the additional objective of improving liquidity in covered bonds;
- Positions the covered bond asset class with respect to the upcoming regulatory challenges (CRD IV, Solvency II, redesign of ECB repo rules, etc.).

The Label is based on the Covered Bond Label Convention, which defines the core characteristics required for a covered bond programme to qualify for the Label. This definition of the required characteristics is complemented by a transparency tool developed at national level based on the "Guidelines for National Transparency Templates".

The Covered Bond Label was created by the EMF/European Covered Bond Council (ECBC) in 2012. It was developed by the European issuer community, working in close cooperation with investors and regulators, and in consultation with all major stakeholders.
