CRD IV Retention

In Europe, investors should be aware of Article 405 of the Capital Requirements Regulation which applies to newly issued asset-backed securities after 1 January 2011, and to notes issued under securitisations established on or before that date from the beginning of 2015 to the extent that new underlying exposures are added or substituted after 31 December 2014. Article 405 requires, amongst other things, an EU-regulated credit institution or investment firm to only invest in asset-backed securities in respect of which the originator, sponsor or original lender of the securitisation has explicitly disclosed to the EU-regulated credit institution or investment firm that it will retain, on an ongoing basis, a material net economic interest of not less than 5% in respect of certain specified credit risk tranches or asset exposures. As Nationwide Building Society ("Nationwide") may, from time to time (including after 31 December 2014), sell residential mortgage loans and their related security to the mortgages trustee pursuant to the terms of the mortgage sale agreement, Article 405 may apply in respect of the notes from 1 January 2015. Nationwide's current policy is to retain, on an ongoing basis, a net economic interest in the Silverstone Master Issuer Programme ("Silverstone") of not less than 5% and to use reasonable endeavours to provide investors with the data and information which they may reasonably require for the purposes of compliance by investors with Article 405. As at the date of this report, Nationwide retains an economic interest in Silverstone in the form of the seller share, the general reserve fund, the Funding 1 yield reserve fund and the unrated class Z notes (all of which are retained by Nationwide) in amounts as stated in the relevant sections of this report.

GLOSSARY

Data reported as "to date" throughout this report refers to the period since inception of Silverstone Finance Trustee Limited in October 2008

All defined terms used in this investor report have the meanings given to them in the glossary set out in the Base Prospectus unless otherwise defined herein

Arrears	Nationwide identifies a loan as being in arrears where an amount equal to or greater than a full month's contractual payment is past its due date. Arrears includes fees and insurance premiums that are included in the arrears balance on which interest is charged. Months in Arrears is a simple multiplier of Arrears balance/full month's contractual payment. If the Months in Arrears is less than one, zero is reported. Nationwide recognise that arrears are typically caused by temporary changes in customer circumstances, and therefore offer a range of forbearance and account management options to customers. Options include temporary conversion to interest only, term extension and arrears capitalisation.
Arrears - default	For the purposes of this report a loan is identified as being in default where an amount equal to or greater than three month's contractual payments is past its due date.
Arrears - weighted average	Accounts not in arrears are excluded from the weighted average table on page 3.
Constant Payment Rates	The total CPR reported on a monthly/3 month average and annualised basis being the aggregated value of Natural and Technical CPR .
Constant Payment Rates (CPR) - Natural	Natural CPRs reported reflect the aggregate of scheduled and unscheduled repayments of principal.
Constant Payment Rates (CPR) - Technical	Technical CPRs reported reflect loans repurchased from the trust (e.g. ineligible Product Switches).
Excess spread	Calculated and reported on each interest payment date as all payments lower in priority than any credit to the Class Z PDL, divided by the Funding 1 share.
Expected Principal Payment Dates	The date when notes are expected to become due and payable.
Geographical Distribution	Mapped to Nationwide's internally derived geographic regions which may differ to the Nomenclature of Units for Territorial Statistics (NUTS) regions used in other reporting.
Indexed	Indexation is applied quarterly on a regional basis to property valuations each January, April, July, October.
Loan to Value ratios at origination	LTV at origination excludes any fees added at the time of origination .
Mortgage Account	A mortgage account consists of one or more underlying loans all secured with equal priority by a first charge on the same property and thereby forming a single mortgage account .
Mortgage Collections	The aggregate amount of scheduled and unscheduled principal and interest collected during the reporting period.
NR PDL	The Principal Deficiency Ledger for the term advances corresponding to the Class Z notes. A debit balance on the NR PDL will be eliminated to the extent there are excess revenue receipts available during the period. Any uncured debit balance on the notes appears on page 7.
NR / Z notes	NR / Z notes are unrated notes which are not publicly issued, listed or traded and are held by Nationwide as Seller. The Class Z notes (and corresponding NR term advance) are subordinated to the General Reserve Fund and have been established to provide credit and, given their subordination, yield enhancement to the programme. The Base Prospectus provides that the General Reserve Fund shall not be available to meet any deficit of interest on NR term advances or meet any deficit caused by a debit balance on the NR PDL except on the final Funding 1 payment date.
Product groups	Product groups are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Properties in Possession - Possessed	Balances and arrears for this entry are taken as of the possession date.
Properties in Possession - Property Returned to Borrower	Balances and arrears for this entry are taken as of the date the property is returned.
Repayment Terms	Repayment terms are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Standard Variable Rates	Nationwide operates two Standard Variable Mortgage Rates . The Base Mortgage Rate is capped at the Bank of England Base Rate plus 200 basis points. The Standard Mortgage Rate is not subject to a cap.
Substitutions	Prior to 31 December 2012 substituted loans included Further Advances granted on mortgage accounts that were already within the Pool .
True Balance	Aggregated Outstanding Balances reported refer to the total outstanding balance (" True Balance") under each mortgage loan. True Balance is the aggregate of: (a) the original principal amount advanced any further amount advanced, (b) the amount of any re-draw made under any flexible loan, (c) any interest, fees or charges which has been capitalised and (d) any other amount (including accrued interest and arrears of interest) which is due or accrued (whether or not due) and which has not been paid and has not been capitalised.
Waterfall	Funding 1 available revenue receipts and Funding 1 available principal receipts are allocated in accordance with the "Cashflows" section of the Base Prospectus to enable the payments on the Notes to be made on the relevant dates, subject to there being sufficient available revenue and principal receipts . All note payment dates fall quarterly on 21st January, 21 st April, 21st July and 21st October.

PCS Disclosure

The notes were awarded a quality label by the Prime Collateralised Securities initiative (PCS) on 19/12/2013.
