EU Risk Retention

In Europe, investors should be aware of Article 405 of Regulation (EU) No 575/2013 (the "CRR"), Article 51 of Regulation (EU) No 231/2013 (the "AIFM Regulation") and Article 254 of Regulation (EU) No 2015/35 (the "Solvency II Regulation") and, together with the CRR and the AIFM Regulation, "EU Risk Retention Requirements" (which in each case does not take into account any relevant national measures) which apply to newly issued asset-backed securities after 1 January 2011, and to notes issued under securitisations established on or before that date from the beginning of 2015 to the extent that new underlying exposures are added or substituted after 31 December 2014. The EU Risk Retention Requirements require, amongst other things, an EU-regulated credit institution or investment firm to only invest in asset-backed securities in respect of which the originator, sponsor or original lender of the securitisation has explicitly disclosed to the EU-regulated credit institution or investment firm that it will retain, on an ongoing basis, a material net economic interest of not less than 5 per cent. in respect of certain specified credit risk tranches or asset exposures. If Nationwide Building Society ("Nationwide") sells one or more new residential mortgage loans and their related security to the mortgages trustee pursuant to the terms of the mortgage sale agreement, the EU Risk Retention Requirements will apply in respect of the notes and Nationwide, in its capacity as originator, (i) on or immediately following the relevant sale date, will retain, on an on-going basis, a material net economic interest of not less than 5 per cent. in the nominal value of the securitised exposures in accordance with the text of the EU Risk Retention Requirements, (ii) will agree not to hedge, sell or otherwise mitigate such risk and (iii) will disclose via an RNS announcement or in an investor report (or in such other manner as the seller may determine) such retained interest and the manner in which it is held.

U.S. Credit Risk Retention

Nationwide, as seller (the "Seller") (or a majority-owned affiliate of the Seller) is required under Section 15G of the United States Exchange Act of 1934, as amended (the "U.S. Credit Risk Retention Requirements") to acquire and retain an economic interest in the credit risk of the interests created by the issuer on the closing date of each issuance of notes and on a monthly basis on each trust calculation date. The Seller currently satisfies the U.S. Credit Risk Retention Requirements by maintaining a seller share in the master trust in an amount at least equal to 5 per cent. of the aggregate outstanding principal balance of all notes issued by the issuer, other than any notes that are at all times held by the Seller or one or more of its wholly-owned affiliates, calculated in all cases in accordance with U.S. Credit Risk Retention Requirements.

GLOSSARY

Data reported as "to date" throughout this report refers to the period since inception of Silverstone Finance Trustee Limited in October 2008

All defined terms used in this investor report have the meanings given to them in the glossary set out in the Base Prospectus unless otherwise defined herein

Arrears	Nationwide identifies a loan as being in arrears where an amount equal to or greater than a full month's contractual payment is past its due date. Arrears includes fees and insurance premiums that are included in the arrears balance on which interest is charged. Months in Arrears is a simple multiplier of Arrears balance /full month's contractual payment. If the Months in Arrears is less than one, zero is reported. Nationwide recognise that arrears are typically caused by temporary changes in customer circumstances, and therefore offer a range of forbearance and account management options to customers. Options include temporary conversion to interest only, term extension and arrears capitalisation. Accounts not in arrears are excluded from the weighted average table on page 3.
Arrears - weighted average	
Constant Payment Rates	The total CPR reported on a monthly/3 month average and annualised basis being the aggregated value of Natural and Technical CPR .
Constant Payment Rates (CPR) - Natural	Natural CPRs reported reflect the aggregate of scheduled and unscheduled repayments of principal.
Constant Payment Rates (CPR) - Technical	Technical CPRs reported reflect loans repurchased from the trust
Credit Enhancement (CE)	The contractual requirement for credit enhancement includes subordination in the form of z-notes and the General reserve (GR). The contractual minimum CE requirement, that Nationwide will manage to, is as detailed in the most recent Final Terms .
Excess spread	Calculated and reported on each interest payment date as all payments lower in priority than any credit to the Class Z PDL, divided by the Funding 1 share.
Expected Principal Payment Dates	The date when notes are expected to become due and payable.
Geographical Distribution	Mapped to Nationwide's internally derived geographic regions which may differ to the Nomenclature of Units for Territorial Statistics (NUTS) regions used in other reporting.
Indexed	Indexation is applied quarterly on a regional basis to property valuations each January, April, July, October.
Loan to Value ratios at origination	LTV at origination excludes any fees added at the time of origination .
Mortgage Account	A mortgage account consists of one or more underlying loans all secured with equal priority by a first charge on the same property and thereby forming a single mortgage account .
Mortgage Collections	The aggregate amount of scheduled and unscheduled principal and interest collected during the reporting period.
NR PDL	The Principal Deficiency Ledger for the term advances corresponding to the Class Z notes. A debit balance on the NR PDL will be eliminated to the extent there are excess revenue receipts available during the period. Any uncured debit balance on the notes appears on page 17.
NR / Z notes	NR / Z notes are unrated notes which are not publicly issued, listed or traded and are held by Nationwide as Seller. The Class Z notes (and corresponding NR term advance) are subordinated to the General Reserve Fund and have been established to provide credit and, given their subordination, yield enhancement to the programme. The Base Prospectus provides that the General Reserve Fund shall not be available to meet any deficit of interest on NR term advances or meet any deficit caused by a debit balance on the NR PDL except on the final Funding 1 payment date.
Product groups	Product groups are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Properties in Possession - Possessed	Balances and arrears for this entry are taken as of the possession date.
Properties in Possession - Property Returned to Borrower	Balances and arrears for this entry are taken as of the date the property is returned.
Repayment Terms	Repayment terms are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Standard Variable Rates	Nationwide operates two Standard Variable Mortgage Rates . The Base Mortgage Rate is capped at the Bank of England Base Rate plus 200 basis points. The Standard Mortgage Rate is not subject to a cap.
Substitutions	Prior to 31 December 2012 substituted loans included Further Advances granted on mortgage accounts that were already within the Pool .
True Balance	Aggregated Outstanding Balances reported refer to the total outstanding balance (" True Balance") under each mortgage loan. True Balance is the aggregate of: (a) the original principal amount advanced any further amount advanced, (b) the amount of any re-draw made under any flexible loan, (c) any interest, fees or charges which has been capitalised and (d) any other amount (including accrued interest and arrears of interest) which is due or accrued (whether or not due) and which has not been paid and has not been capitalised.
