GLOSSARY

Data reported as "to date" throughout this report refers to the period since inception of Silverstone Finance Trustee Limited in October 2008

All defined terms used in this investor report have the meanings given to them in the glossary set out in the Base Prospectus unless otherwise defined herein

Arrears	Nationwide identifies a loan as being in arrears where an amount equal to or greater than a full month's contractual payment is past its due date. Arrears includes fees and insurance premiums that are included in the arrears balance on which interest is charged. Months in Arrears is a simple multiplier of Arrears balance /full month's contractual payment. If the Months in Arrears is less than one, zero is reported. Nationwide recognise that arrears are typically caused by temporary changes in customer circumstances, and therefore offer a range of forbearance and account management options to customers. Options include temporary conversion to interest only, term extension and arrears capitalisation. Accounts not in arrears are excluded from the weighted average table on page 3.
Arrears - weighted average	
Constant Payment Rates	The total CPR reported on a monthly/3 month average and annualised basis being the aggregated value of Natural and Technical CPR .
Constant Payment Rates (CPR) - Natural	Natural CPRs reported reflect the aggregate of scheduled and unscheduled repayments of principal.
Constant Payment Rates (CPR) - Technical	Technical CPRs reported reflect loans repurchased from the trust
Credit Enhancement (CE)	The contractual requirement for credit enhancement includes subordination in the form of z-notes and the General reserve (GR). The contractual minimum CE requirement, that Nationwide will manage to, is as detailed in the most recent Final Terms .
Excess spread	Calculated and reported on each interest payment date as all payments lower in priority than any credit to the Class Z PDL, divided by the Funding 1 share.
Expected Principal Payment Dates	The date when notes are expected to become due and payable.
Geographical Distribution	Mapped to Nationwide's internally derived geographic regions which may differ to the Nomenclature of Units for Territorial Statistics (NUTS) regions used in other reporting.
Indexed	Indexation is applied quarterly on a regional basis to property valuations each January, April, July, October.
Loan to Value ratios at origination	LTV at origination excludes any fees added at the time of origination .
Mortgage Account	A mortgage account consists of one or more underlying loans all secured with equal priority by a first charge on the same property and thereby forming a single mortgage account .
Mortgage Collections	The aggregate amount of scheduled and unscheduled principal and interest collected during the reporting period.
NR PDL	The Principal Deficiency Ledger for the term advances corresponding to the Class Z notes. A debit balance on the NR PDL will be eliminated to the extent there are excess revenue receipts available during the period. Any uncured debit balance on the notes appears on page 17.
NR / Z notes	NR / Z notes are unrated notes which are not publicly issued, listed or traded and are held by Nationwide as Seller. The Class Z notes (and corresponding NR term advance) are subordinated to the General Reserve Fund and have been established to provide credit and, given their subordination, yield enhancement to the programme. The Base Prospectus provides that the General Reserve Fund shall not be available to meet any deficit of interest on NR term advances or meet any deficit caused by a debit balance on the NR PDL except on the final Funding 1 payment date.
Product groups	Product groups are reported at an individual loan level (please refer to the definition of ' Mortgage Account' above).
Properties in Possession - Possessed	Balances and arrears for this entry are taken as of the possession date.
Properties in Possession - Property Returned to Borrower	Balances and arrears for this entry are taken as of the date the property is returned.
