Tariff of Charges for commission-included funds

For customers who invested through Nationwide before 31 December 2012 with commission.

From 1st April 2016, the charges you will pay for each individual fund you hold are made up of an Ongoing Charges Figure (previously known as the 'Annual Management Charge') plus a Platform Charge.

Summary of Charges

You pay an Ongoing Charges Figure (OCF) for each fund in which you're invested. The OCF is made up of the following:

Ongoing Charges Figures Summary	
Fund Manager Charges – for providing and managing the fund	0.25% to 2.49% p.a. (varies by fund)
Nationwide Commission – for the advisory services we provide	Up to 0.50% p.a. (commission is included within the fund manager charge)
IPS Fee*	This forms part of the OCF. IPS will rebate this back to you and take a separate IPS Platform Charge to ensure the charges are clear.*

*Please see the 'Taxation of rebates' section for more details.

Platform Charge Summary	
Primary Platform Service – applied if you have access to a range of funds provided by Legal & General only.	0.31% p.a.
Full Platform Service – applied if you have access to the full range of funds from different fund managers.	0.39% p.a.

For specific fund charges please refer to the Key Investor Information Document (KIID). For the current Nationwide Commission rates, please see the Fund Commission Charges Table.

Nationwide commission

From 1st April 2016, the amount of commission we receive on funds will not exceed 0.50% per fund. For some funds this will mean you receive a rebate of any commission paid above 0.50% and for other funds we have negotiated a reduction in the fund's OCF. See the 'Taxation of rebates' section for more details.

What services will I receive from Nationwide in return for this charge?

Nationwide Commission is paid to us via the Fund Manager and covers our advisory services as follows:

- The expertise of a team of investment specialists who:
 - Review the range of funds we have on panel in order to bring you investment funds to meet your needs;
 - Regularly review investment fund performance to ensure they perform in line with our expectations.
- Oversight of the Investment Committee who:
 - Meet to review and act on any recommendations made by our investment team;
 - Make recommendations to contact you if they think that the funds will not perform as we would expect.
- Access to a Financial Planning Manager at your request, if you wish to review your holdings.

How much will I pay?

The maximum Nationwide Commission you will pay will be 0.50% p.a. per investment fund. From 1 April 2016, where an OCF includes Nationwide Commission over 0.50% p.a., the excess will be rebated back to you in the same way as the IPS Fee.

Example

If you invested a £40,000 lump sum your commission payment at a rate of 0.50%, based on a 31 day month, would be £16.99 a month. (Please note that the actual charge will vary depending on the number of the days in the month)

IPS Platform Charge

From 1st April 2016, the IPS Platform charge replaces the IPS Fee that forms part of the fund's OCF. To ensure you're not charged twice for Cofund's services, the IPS Fee will be returned to you as a rebate into the fund where you have your largest investment. Please see the 'Taxation of rebates' section below for more details.

Your new annual IPS Platform Charge will be a fixed percentage based on the value of your IPS holding. It will be charged separately and collected monthly from your IPS Cash account.

How much will I pay?

Primary Platform Service

A flat rate of 0.31% p.a. will apply where you have access to a panel of funds provided solely by Legal & General.

Full Platform Service

A flat rate of 0.39% p.a. will apply where you have access to the full panel of funds from different fund managers.

Taxation of rebates

What are rebates?

Rebates are refunds of charges received from the Ongoing Charges Figure. From 1 April 2016 you receive a rebate of the IPS Fee and any Nationwide Commission you would pay in a fund above 0.50%.

How does Tax apply?

Rebates to Unit Trust/OEIC fund charges are taxable as income and any amount used to buy units will be net of basic rate tax at 20%. This means that if you're a higher rate or additional rate taxpayer, you may have a further tax liability to pay. If you're not liable to income tax, you may be able to reclaim some or all of the tax deducted from HM Revenue & Customs. Please note that for Stocks & Shares ISA investments, rebates on fund charges will not be subject to income tax.

THE VALUE OF YOUR INVESTMENT CAN GO DOWN AS WELL AS UP SO YOU MAY GET BACK LESS THAN YOU ORIGINALLY INVESTED

Fund Charge

Annual charge

This charge is taken into account when working out the unit price and is used to pay the fund managers (e.g. Legal & General Investment Management) who buy and sell assets to match the objective of the fund.

How much will I pay?

The Fund Charge varies by each fund with each charge negotiated on your behalf to ensure that you have access to competitive rates. In some instances we have been able to negotiate that part of the Fund Charge is returned to you. This is called a 'rebate'. Rebate amounts will be invested as units (once the amount reaches a minimum of £2.50) into the largest fund of the product that the rebated fund is held in.

Rebates to Unit Trust/OEIC fund charges are taxable as income and any amount used to buy units will be net of basic rate tax at 20%. This means that if you're a higher rate or additional rate taxpayer, you may have a further tax liability to pay. If you're not liable to income tax, you may be able to reclaim some or all of the tax deducted from HM Revenue & Customs. Please note that for Stocks & Shares ISA investments, rebates on fund charges will not be subject to income tax.

Please refer to the most recent fund tables or Key Investor Information Documents/Key Information Documents for the most up to date fund charges.

Transaction Costs

Transaction costs are the costs incurred by fund managers buying or selling securities within a fund. These costs include broker commissions, taxes and levies, but other factors such as the bid-offer spread, the size and timing of the transaction, and the movement in an asset price can all contribute to additional trading costs.

These costs vary from fund to fund and can change from year to year. The most recent cost available for any fund you invest in will be included in any calculations you receive before you invest.

We are able to provide this document in Braille, large print or audio format upon request. Your local branch will arrange this for you or you can contact us on **0800 30 20 11**.

Important Information

Investments are provided through Cofunds Limited for the provision of Investor Portfolio Services and facilitation of dealing.
